

RAPTOR
INTEGRATION

Full Stack Developer

Website:

<http://raptorint.ca/>

Join the Raptor team in beautiful Salmon Arm, BC as a Software Integration Developer!

Raptor provides custom scanning and control system solutions in the wood processing industry.

Responsibilities:

- Feature development in primarily C# on new and existing projects
- Database management to accommodate incoming features
- Provide CRUD support for database shared by multiple applications
- Writing/maintaining stored procedures
- Developing custom features for customers in a maintainable way
- Participate in and lead feature design meetings and feature reviews
- Work within a team to deliver high-quality software and scanning solutions
- Modification of existing algorithms and design of new algorithms
- Document new and existing features for internal and external use
- Assist with design and/or implementation of features on R&D projects

Requirements:

- Familiarity with the following languages: C#, JS, HTML, CSS, SQL.
- Experience with Web Apps (aspx, razor, blazor) and the deployment process (mostly local, IIS).
- Experience with C# based desktop applications (WPF, WinForms).
- Database design and optimization (mostly relational).
- Experience with Visual Studio and the tools that come with it.
- Experience with version control and working in team environments.
- Works well in a collaborative setting.

Preferred Skills:

- Competency with SQLServer.
- Familiarity with Vue2/3.js.
- Ability to write clean, maintainable code.
- Drive to improve rather than just make things work.

Additional Information:

This position is based out of our head office in Salmon Arm, BC with a requirement to travel internationally and domestically.

We offer competitive wages and comprehensive benefits packages.

Qualified applicants, please submit a resume to: careers@raptorint.ca
